

ISLAND CREST PARK RENOVATION PROJECT

Project Fundraiser

In 2014, the Mercer Island Parks and Recreation Department was awarded a grant through the Recreation & Conservation Office for the renovation of Island Crest Park. The grant, totaling \$500,000, will help pay for the replacement of the existing lighting system at Island Crest Park, and the conversion of the entire south field to synthetic turf. The grant requires \$150,000 in donations from the community. We need your help to make this project a reality, allowing for year round play for Mercer Islanders and other regional athletes.

Project Summary

- Brand new lighting system at entire complex
- Synthetic turf infield & outfield on ICP South
- Removable pitcher's mound on south field
- Year-round play at Island Crest Park
- Increased opportunity for local and regional teams
- Sustainable development

Island Crest Park North Field

Island Crest Park

- 1800 + hours of playing time booked each year
- 75+ baseball & softball teams play annually
- 30+ soccer & football teams play annually
- Popular venue for local and regional tournaments
