You may review the files on projects at the offices of Development Services, 9611 SE 36th St, Mercer Island. Comments on proposals are accepted for a period of not less than fourteen (14) days from the date of publication of this bulletin. Comments must be in writing and contain your name and address and must also include the project number and location. All written comments must be filed with the Development Services Group. If there is a public hearing, testimony may be given at the public hearing before a decision is made in order to establish standing to appeal the decision.

When the SEPA field indicates a Determination of Nonsignificance (DNS) is expected, the optional DNS process is being used and a DNS is likely. This may be the only opportunity to comment on the environmental impacts of the proposal. The proposal may include mitigation measures under applicable codes and the project review process may incorporate or require mitigation measures regardless of whether an Environmental Impact Statement (EIS) is prepared. A copy of the subsequent Threshold Determination for the proposal may be obtained upon request.

<td>Description:</td>
<td>The City of Mercer Island received an application for a fence height deviation. Fences or retaining walls that are located within a required building setback yard that lies within 20 feet of an improved street are limited to a maximum height of 42 inches. However, the Mercer Island City Code (MICC) allows for a height deviation to increase the maximum allowed height from 42 inches to 72 inches for a fence and gate within 20 feet of an improved street if certain criteria are met.</td>

PUBLIC NOTICE OF APPLICATION

Project #: DEV13-015

Description: The City of Mercer Island received an application for a deviation from the maximum allowed impervious surface limit. Impervious surfaces are items that prevent water from penetrating into the soil, such as driveways and rooftops. A maximum of 30% of some lots in residential zones can be covered with impervious surfaces (subject to certain allowances). The City code allows for the lot to be covered with an additional 5% of impervious surface (for a total of 35% lot coverage) via a deviation application if certain deviation criteria are met.

KC Assessor's Parcel: 2424049035

Applicant: ECCO DESIGN INC
Owner: DONALD GORSKI

Date of Application: Thursday, May 2, 2013

Date Determined to be Complete: Tuesday, June 11, 2013

End of Comment Period: Monday, July 8, 2013 at 5:00pm

Applicable Regulations: MICC 19.07.110, 19.15.020, 19.07.120, WAC 173-27, RCW 90.58

Decision Authority: Code Official

SEPA Review: An initial evaluation of the proposed project for probable significant adverse environmental impacts has been conducted. It is anticipated that a SEPA Threshold Determination of Non-Significance (DNS) will be issued for this project. The optional DNS process, as specified in WAC 197-11-355, is being used. Mitigation measures may be incorporated or required regardless of whether an Environmental Impact Statement (EIS) is prepared, in addition to mitigation measures already included in the proposal.
