LONG PLAT/LONG SUBDIVISION PRELIMINARY APPROVAL - SUBMITTAL REQUIREMENTS

PURPOSE

A Long Plat/Long Subdivision is any subdivision of five (5) or more lots. The Long Plat/Long Subdivision application review is to ensure that a proposed land division is designed and developed in accordance with the City of Mercer Island's adopted rules and standards. The proposal must be consistent with the protection of the public health, safety, welfare and aesthetics, and provide for adequate public services and infrastructure. Per Ordinance No. 17C-15, building and other permits associated with single family development of a preliminary long subdivision are excluded from consolidated permit reviews.

PRE-APPLICATION MEETING

A pre-application meeting is used to determine whether a land use project is ready for review, to review the land use application process, and to provide an opportunity for initial feedback on a proposed application. Some land use applications require a pre-application – in particular: short and long subdivisions, lot line revisions, shoreline permits, variances, and critical area determinations. The City strongly recommends that all land use applications use the pre-application process to allow for feedback by City staff.

Please note: pre-application meetings are held on Tuesdays, by appointment. To schedule a meeting, submit the meeting request form and the pre-application meeting fee (see fee schedule). Meetings must be scheduled at least one week in advance. Applicants are required to upload a project narrative, a list of questions/discussion points, and preliminary plans to the Mercer Island File Transfer Site one week ahead of the scheduled meeting date.
